

Company Profile

Company Overview

Vafamedical Trading Company is one of the leading brands in producing and exporting health consumption medical equipment in the Middle East. Having up-to-date and advanced equipment and machinery, along with expert personnel, this company attempts to produce high-quality and distinctive products and supply them to global markets.

From the very beginning, with innovation and monitoring of the target market, we did our best to recognize the customers' real needs and supply those needs to turn into one of the best and high-ranked ones in this new industry.

At present, having the most diversity in our products, Vafamedical Trading Company has turned into one of the biggest producers in this field. And we deeply are proud to gain a more significant share in the markets of the Middle East with the trust and support of dear consumers.

Bussiness Description

Nowadays, with an ever-growing advance in science and technology as well as the remarkable expansion of the scope of medical science in order to respond to the request and needs of mankind for gaining more experience and knowledge, medical science has aligned with medical equipment in a way that these two are complementary to each other and can grow together and hand in hand.

Also, the specific importance of providing medical services for the comfort and relaxation of patients in most societies has made the role of equipment in this area more critical.

Considering the high sales and the economic growth of these products across the globe, many companies are involved in producing and exporting these products, among which vafamedical Trading Company has managed to design and produce all kinds of medical equipment with the best quality and facilities by using advanced machinery and experienced staff in order to meet the needs of all traders and merchants in the Middle East.

Today, Vafamedical has become one of the largest producers of all kinds of products in the Middle East by meeting the needs of merchants.

Vision and values

Developing the products quantitatively and qualitatively by taking advantage of modern knowledge and using advanced machinery and equipment to meet the needs of traders and merchants worldwide is the vision of Vafamedical Trading Company in the near future.
